imagine

for a moment...

you or a loved one called one of thousands of treatment centers and were told it will take an hour (or more) to verify your insurance benefits.

Would you call somewhere else?

Change your mind?

Admissions staff are trained to PAUSE the admission's process until the potential patient's insurance has been FULLY verified which leads to lost admits.

VerifyTX is for Addiction Treatment Centers who want to admit every qualified prospect.

VerifyTX is a cloud-based platform designed for the Behavioral Health Industry to accelerate the admissions process and monitor patient's insurance coverage.

The solution was born from an unmet need in the market place where treatment centers cannot easily confirm their patient's insurance benefits. They are forced to work with insurance providers which operate on limited time schedules and are designed not to be responsive.

verifytreatment™

“Having the access to verify benefits after hours has been critical in our ability to help those in need any time of the day or night. I can't say enough about Lindsay; she has always answered my phone calls for support (even though she isn't tech support, lol) on the first ring. She knows the product inside and out and has been with the company since the start.”

— Michael Hulick, Addiction Rehab Centers
