five ways
to increase revenue

VerifyTreatment is a cloud-based platform designed specifically for **treatment centers** to accelerate admissions, increase productivity, protect your revenue and improve client response.

Ultimately saving your treatment facility thousands of dollars.

verifytreatment™

Be the first facility to say "Yes" when someone calls seeking treatment

When someone is seeking treatment, they call several facilities looking for immediate assistance.

using verifytx

" I just checked your benefits, everything looks good to me. I'll send it in for one final check, but let's start your screening. "

[Continue with the admissions process]

without verifytx

" I'll send this over to our insurance verifier, it typically takes about an hour, then I'll call you back. "
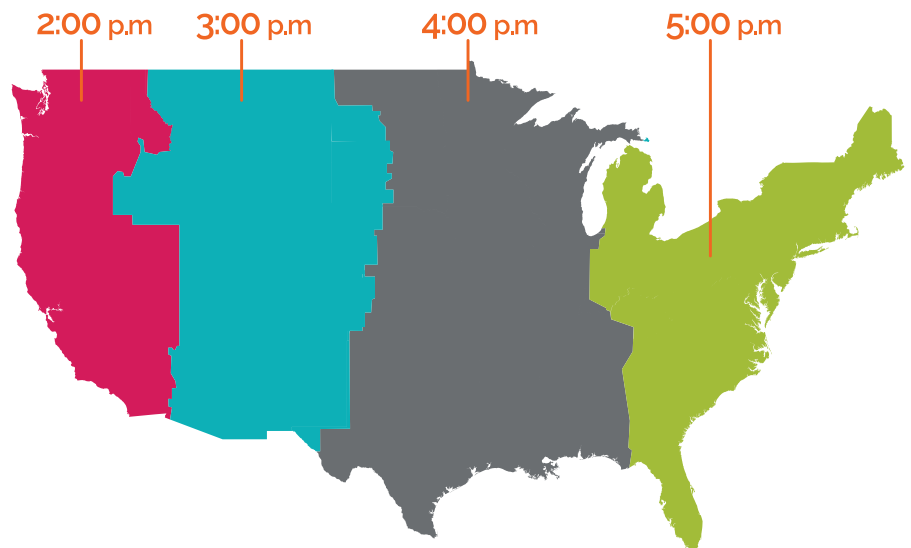

[Hangs up phone with prospect]

1 patient a month

1 out of every 10 calls results in a lost patient, which is $10K-20K in lost revenue per patient.

verifytreatment™

Verify insurance benefits
24 hours a day - 7 days a week

Our single sign-on web and mobile app are easy-to-use, available 24/7/365, and allow you to accept new patients upon request.

| 2:00 p.m | 3:00 p.m | 4:00 p.m | 5:00 p.m |

Most insurance carriers work on Eastern time.

Anytime you wait on the verification you risk losing the client. Accept new patients at any time of the day.

Verify insurance benefits 24/7/365 including holidays in under 10 seconds

verifytreatment™

Save time, resources and staffing needs

The traditional insurance verification process is time-consuming, convoluted, and requires staffing.

Streamline your workflow with the following features:

- Access 625+ insurance providers with one platform
- Turn your "contact us" form online into verified leads with our web-to-lead APIs

Our Salesforce integration saves you time and payroll.

- Access coverage status, plan sponsor, and all data
- Process a custom verification right from Salesforce

625+

Access to 625+ insurance companies from our web, mobile, and Salesforce app

verifytreatment™

Automatically reverify your census every week

Treatment centers lose millions of dollars due to policies terming.

"We are absolutely thrilled about the Automated Verification Reports which allows us to stay on top of the statuses of our clients insurance policies."

— Evan Kaiser, The Edge Recovery ★★★★★

With Auto-VOB Monitoring you don't run the risk of a lapsed policy.

Capture termed policies by automatically re-verifying your census without additional payroll costs.

You will get real-time notifications when insurance terms while the client is still in treatment - catch just one policy lapse and save thousands per client.

auto vob
monitoring

Protect your insurance revenue and get real-time notifications when a patient's insurance lapses

verifytreatment™

Improved customer relations and peace of mind

The window of hope when someone calls is often incredibly small.

The faster they can help someone, the better chance they have of providing them with potentially life-saving care.

" We save $10,000 a month and are able to assist our patients right away... you can't really put a number on a client's peace of mind. "

— Tiffany Barnes, Verification of Benefits Manager at Foundations Recovery Network ★ ★ ★ ★ ★

VerifyTreatment makes it possible to have answers on the spot, in regards to their insurance coverage and financial options.

800k
